

TENOR SAXOPHONE

SIGNATURE

The renewal of tradition

The Signature tenor embodies the evolution of the Series III model, improving its acoustic and ergonomic qualities while drawing inspiration from the latest innovations applied to the Supreme model.

A saxophone that is at once traditional and a beacon of modernity, the Signature tenor is embellished with original engraving in the Art Deco style, paying homage to the age-old techniques handed down through generations of artisans at the SELMER factory in Mantes-la-Ville since 1919.
